

PAPERS DAY

Saturday 2nd February 2008

Tim Arnold "Crafting successful communications -

a new initiative to save English Freemasonry."

This paper compared long-standing arguments and data about Masonic resignations with newly published figures from Bucks, which suggest at best that there has been no improvement in recruitment and retention in the craft. It goes on to argue for a new Masonic initiative on education and internal communication as a way of speeding up the process of modernisation, to safeguard the order's future.

Andrew Irvine "The Lion, the King and the Temple -

An explanation with Model. "

His talk was based on the building of King Solomon's Temple. Taken from the viewpoint of how our Master overcame the various problems confronting him in the design process and explaining how the temple operates within his design, using his model as a demonstration.
